

Introducing the Intel EtherExpress™ PRO/100 Smart Adapter!

The First Intelligent 100 Mbps Adapter Card for Servers

Intel's EtherExpress™ PRO/100 Smart Adapter is the only intelligent 100 Mbps server card on the market. With an on-board Intel I960® processor, it can decrease the workload of the host CPU, freeing up the server. The result is faster throughput and lower CPU utilization than all other FastEthernet cards on the market†. For customers with high end servers and aggressive networking needs, the EtherExpress PRO/100 Smart Adapter is the optimum solution.

- Intelligent adapter for fastest overall server performance.
- Optimized architecture for Pentium® processor-based servers.
- Autosensing configuration for 10 or 100Mbps Ethernet.
- Limited lifetime warranty.

Product Name	Product Code	SRP
EtherExpress™ PRO/100 Smart Adapter	PILA8485	\$895
