

Intel NetportExpress™

Trade-up and Cash-in Program

Offer Valid through 12/31/95

Purchase a new NetportExpress™ print server, send us your old print server -- get \$150 back!

- *Simultaneous multi-NOS support on the XL.*
- *High throughput - up to 180KBps.*
- *New Windows based central management software.*

Program Overview

Simply buy a new NetportExpress™ XL or EL print server, trade-in your old Netport®, Netport II or a non-Intel print server and you can receive a \$150 rebate! Intel's NetportExpress Print servers have:

- High throughput - up to 180 KBps
- Multi-NOS support (XL model) including Native NetWare* NDS and Windows NT* support.
- Support for up to three printers
- Ability to upgrade via flash memory
- Windows-based central management software

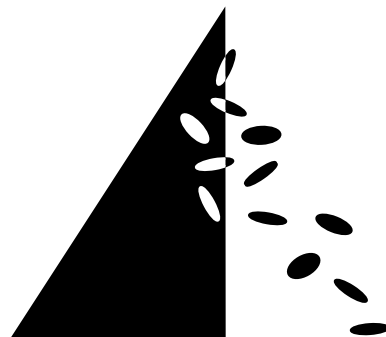

Anyone who purchases a new NetportExpress XL or EL and returns an old Netport, Netport II or non-Intel print server is eligible for a \$150 rebate. Simply follow the five easy steps on the next page, and let NetportExpress print servers help you take control of your network printing.

Non-Intel Print Servers

We will accept any network-based hardware print server as a trade-in, including both internal print server cards and external print servers.

Which NetportExpress Print Server Should I Choose?

The NetportExpress XL supports NetWare (including native NDS), Windows NT, UNIX (SCO, SunOS, Solaris*, UnixWare*, HP UX*, IBM AIX*), LAN Manager*, LAN Server*, and AppleTalk*.

NetportExpress™

TRADE UP CASH IN

The NetportExpress XL model supports up to three printers simultaneously with throughput of up to 180KBps. NetportExpress EL model supports NetWare (including native NDS), and up to two printers.

For More Information

For more information on Intel's NetportExpress Print Servers call our FaxBack* 24-hour Information Service at 800-525-3019 and select the appropriate document:
