TEHRAN SCENERY

Touradg Morassaei

This is the first add-on for microsoft flight simulator 2002 of tehran scenery version 1. all objects were designed by Touradg Morassaei from Iran.It is a freeware add-on.
Include:
Milad tower.ekbatan.mehrabad tower.new hangar.trees.lsp buldings.sigh & many other thing like airport's vehicle and more.....

Installation:
1.extract all files into a folder.
2.put all bgl and xcl file into scenery folder in add-on scenery in main fs fold
3.put all texture file into main fs texture folder.
4.start flight simulator and enjoy.......

Fs2002/addon scenery/scenery
Fs2002/texture

some note:
If your fs does not recognize the scenery go to scenery library and click on add botton then select add-on scenery folder and press ok.
this add-on does not cause error in fs .If you get errors it is because of other reasons.This version does not include azadi sq.it will be ready for next version of tehran scenery
