LICENSE AGREEMENT

*** Please read this entire agreement ***

This End-User License Agreement (the "Agreement") is a legal agreement between you ("Licensee"), the end-user, and WebVisia LLC ("WebVisia") for the use of the WV Zoop software product ("Software").

By using this Software or any part of it, you are agreeing to be bound by the terms of this Agreement.

If you do not agree to the terms of this Agreement do not install this Software.

COPYRIGHT

This Software is protected by both United States copyright law and international treaty provisions.

LICENSE AND DISTRIBUTION

The evaluation copy of this Software is free of charge. It contains only the easy level of the game and you can not use Undo button and autosave when you exit the game. You must pay the license fee and register your copy to continue to use the Software. and remove the nag screen. You're allowed to make as many copies of this evaluation version (in UNMODIFIED form) as you wish to distribute.

RESTRICTIONS

You may not nor permit anyone else to de-compile, reverse engineer, or disassemble, modify, or create derivative works based on the SOFTWARE or the documentation in whole or in part. You may not use the Software for any commercial purpose or public display, performance, sale or rental. You may not use the Software to perform any unauthorized transfer of information (e.g. transfer of files in violation of a copyright) or for any illegal purpose.

NO WARRANTIES

This software and any related documentation is provided "as is" without warranty of any kind.

WebVisia LLC specifically disclaims all warranties, expressed or implied, including but not limited to implied warranties of fitness for any particular purpose and of merchantability.

LIMITATION OF LIABILITY

In no event will WebVisia LLC be liable to you for any damages, including but not limited to any loss of data, lost profits, lost savings, commercial damage or other incidental or consequential damages arising out of the use or inability to use this program directly or indirectly, or for any claim by any other party.

Welcome and Registration

WV Zoop

WV Zoop is amusing and interesting fast reaction logic game. It features a variety of figures and colors plus a lot of game levels and options to suit various tastes and abilities.

Included in this archive are the following packages:

Zoop.prc - This is the software package that you need to install on your PalmPilot.

Zoop.pdf - This is the Users' Manual for Lines. You are reading it right now.

System Requirements

Palm OS 3.5 or higher

Color device

154KB free memory

Registering WV Colors Mania

WV Zoop is downloadable shareware. Its registered copy costs \$ 12.95. The demo version is completely functional, but you can play only levels 0 and 1. If you decide to buy the game, you will receive a registration key.

You can register your software at our home site:

www.webvisia.com

or at our retailers' web sites:

www.palmgear.com

www.handango.com

It is very important that you include your Serial Number EXACTLY as it is shown in your PalmPilot (tap **Menu|Help|Registration** to see it). We use this to generate your Registration Key, so you must be precise.

A screenshot of a 'Registration Form' dialog box. The dialog has a purple title bar with the text 'Registration Form'. Inside, there are two text input fields. The first is labeled 'Serial Number' and contains the text '211001810213'. The second is labeled 'Registraton Key' (note the typo) and is empty. At the bottom of the dialog are two buttons: 'OK' and 'Cancel'. The dialog box has a decorative border with a checkered pattern at the top and bottom.

Once you register, you will receive by Email a **Registration Key** from us. To enter the **Registration Key**, first tap on the Menu silkscreen button. Then, select Help, and tap Registration. Finally, enter your Registration Key on the space provided (see the above illustration).

Contacting WebVisia LLC

There are several ways to get in touch with us here at WebVisia LLC Email is the preferred form of communication, but whatever works for you is fine. If you have any questions, commands, suggestions or compliments, please don't hesitate to contact us.

Email: support@webvisia.com

World Wide Web: <http://www.webvisia.com>

Reporting Bugs

If you find a bug in our software, it would be helpful if you reported the bug to us. To report a bug, please Email us with Bug Report Request in the subject line. In your Email, include the following information:

What type of PalmPilot you are using (i.e. Personal).

The software name and version number (i.e. Zoop 1.00).

The error number and the exact contents of the error message.

A brief description of how we can recreate the error.

Your name and Email address so we can contact you when the bug is fixed.

It is best to report bugs by Email, so that the programmers have a written record of the information they need to solve the problem. As soon as we receive your Email, we will examine the problem, and fix it. Because our programmers are busy creating software, it can take a while for them to reply, but they will release a new version of the software that fixes the bug as soon as they can.

WV Zoop – User Guide

WV Zoop

The aim of the game is to eliminate figures from the playing field. If you manage to arrange more than one figure from a same color in a row, your score will increase. They should not be more than five, because if you have six – the game will ends. You get score points if you make more rows of same color.

Intensifying gameplay demands expert strategic thinking. (In other words, use your head!)

New Game

In the main applications screen of your device, tap the Zoop icon. The logo screen will appear. Tap on it to start the game.

Choose Your Level

Zoop has a lot of difficulty levels from 1 to 50 . The difference is in the speed of appearing of the figures. If you play Zoop for the first time you can not choose the level. Next time you start the game you can choose the level up to the one you have reached at last game. If you choose the same, at which the game was over, you will start playing with a small difference in the score. It happens only if you have move up to one level. You can choose the level from the dialog program from **Menu | New Game**.

The Sound Option

To switch on the sound of the game, go to **Menu| Preferences**. You can mark or unmark the **Sound**.

You have another possibility to turn off the sound – you have to tap on the **Sound icon**. You can choose it from **Menu | New Game**.

If you do not want to see the logo every time you start the game, go to **Menu|Preferences** and mark the **Disable Splash Screen**.

The Figures

The game has six types of figures, which differ in shape and color:

Play WV Zoop

Playing Zoop

The Zoop's playing field contains 5 squares - four of them are at the corners and one is in the center of the field. The top left shows your **Score**. The top right - the **Level**. Players defend Zoop's center square by firing against advancing rows of multi-colored, fast-moving shapes which simultaneously approach from four different directions. Each colour figure eliminate the same coloured ones. The patterned figure eliminate all of one colour, which are in the field. When the bomb appears you can use it to clear one field from all kind of figures. It can be made if you direct it to the center of the field.

If you manage to make a row of same colored figures, your score increases.

The field in the right side shows how many figures are left to finish the current **Level**. Every time you remove the figure the yellow line decreases.

The game is over when one of the rows reaches the middle square.

Scoring

The movement of one figure gives you 10 points. Every other you put over, from the same color, increases your points by 10.

Think ahead to score higher bonus, and cause chain reactions by hitting multiple sets with one move. To view scores go to **Menu|Game|High Score** for timed game and the following screen will appear:

No:	Name:	Score:	Level:
1.	Neil	2125	3
2.	Kevin Ly	1840	1
3.	Maryann	982	2

OK

Tap **OK** to exit this screen.

Help

WV Zoop offers some simplified internal help. You can find there some basic information of the rules of the game and its final goal.

To view these tips go to **Menu|Help|Help**. Tap **Done** to quit the screen.

The End

Well, that is all for now. No matter how you play, the Zoop will keep you busy for hours. Enjoy your time!
